Congratulations to the organizations selected to participate in the New Ground Initiative!

College and Community Fellowship
The Doe Fund
The Fortune Society

New Ground: A Foundation to Build Wealth is a capacity building initiative to support New York City’s re-entry programs to embed financial development into their services. This program will focus on improving the lives of formerly incarcerated individuals through a combination of financial development strategies to help individuals build skills and make positive changes to improve their financial security.

The Financial Clinic thanks all of the organizations who applied, and looks forward to working with the re-entry community going forward.

For further information about New Ground, contact Becky Smith at rsmith@thefinancialclinic.org

New Ground: A Foundation to Build Wealth is delivered by The Financial Clinic with support from Mizuho Foundation USA.
